ECO-CHIC | FASHION NEWS

to a tee: eco-friendly line launches new style in time for earth day

by [teen vogue](#) april 15, 2009

Most holidays are accompanied with some kind of sweet or treat, and the upcoming earth day, April 22, is no exception to the rule. In honor of the day, eco line Revenge Is will be launching a new line of tees, with Revenge Is Saving the Earth written across the front. Made of recycled plastic bottles and organic cotton, these tees deliver a timely message and are cute and comfy to boot. Revenge Is embraces the notion that small steps, like using a canvas bag for groceries, can and do make a difference. And with these sweet tees and earth day around the corner, you have every reason take this stylish step towards a healthier

planet.
