**GREAT GREEN GRAPHIC TEES**

By Bonny Osterhage

Is there any better wardrobe staple than a great t-shirt? Whether it's old and ratty from your college days or snug and sexy for a night out, the perfect tee just feels "right" every time it touches your skin. It's like a hug from an old friend. And, when you pair it with your favorite jeans—well, it just doesn't get any better than that. While there are hundreds of great [eco fashion](#) t-shirts out there, we decided to hone in on tees with cool graphics that will quickly win your heart and a place in your wardrobe.

**Element EcoWear "Find Your Element" Tees**

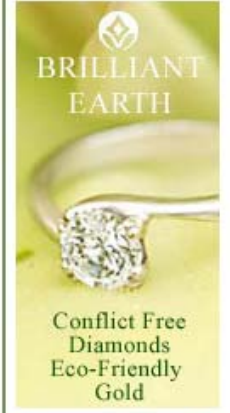

You get to play fashion designer at Element EcoWear. First, choose from one of eight styles of flattering bamboo and organic cotton tees. Next, select from more than 300 graphics in 12 different categories to reflect who you really are, from nature to spiritual to edgy. It's fun, simple and eco fashionable. Prices for tees range from \$24-\$26 and graphics are an additional \$10 at [www.elementecowear.com](http://www.elementecowear.com)

**Revenge Is...RPET T-shirts**

Living well may be Ivana Trump's revenge, but ours is living green. That's why we love these super soft tees from Revenge Is, made using recycled plastic bottles. Yep, Revenge Is has spun plastic into fiber, blended it with organic cotton and created a line of wonderful t-shirts that let you express your inner activist. We're particularly fond of the newest, more elaborate design, "Revenge is Saving the Earth." \$32 at [www.revengeis.com](http://www.revengeis.com).

### SERIOUSLY?!

*Doesn't Get Lazier Than This*

We've seen a lot of things in our day that turn into other things, but we're having a very hard time figuring this one out. Why would anyone need their chair to turn into a shower? Seriously?! We have our theories — You're running late and don't have time to go to the bathroom to shower? You want to impress a date with an instant romantic shower together without having to lure him or her into the bathroom? You're the laziest person ever? In any case, this chair unfolds in just two minutes into a fully functional shower. If that wasn't enough, there's even a "dry room" for you to towel off afterwards. Now, if it was a chair that transformed into a toilet, that would, at least, make a little more sense, although we wouldn't recommend keeping that in your living room.
