

## GREEN WEDDING GUIDE

### 'Think Green' Kid's Tee Made from Recycled Plastic Bottles

July 12, 2009

by Jennifer Chait

**Revenge Is...** recently debuted their organic **Think Green** tee for kids, and it's made from recycled plastic bottles! The thought of wearing recycled plastic bottles may seem puzzling or uncomfortable, but Revenge Is... proves that upcycling is an amazing way to upgrade a product by making some of the **softest tees around!** They melt the plastic into a fine yarn and combine it with organic cotton to create super soft material. Each tee is made with 50% RPET and 50% organic cotton, is printed with eco-friendly **water based inks** and is free from PVC, phthalates, Formaldehyde, heavy metal and APEO. Bonus: Revenge Is... tees for kids start at size 2 and go all the way to size 12, so tweens can get in on 'thinking green' too!

Learn how Revenge Is... **recycles plastic bottles into fiber!**
