## Revenge Is T-Shirt

By: *Amanda, mom of Jonah (13) and Ellen (10)*

(0) [Comments](#)

Revenge Is embraces the notion that taking small steps can make a big difference. For this t-shirt — and many of the company's products — recycled plastic bottles have been melted down and processed into a fine yarn which becomes this t-shirt. Ultimate recycling, no pesticides and less plastic in landfills. Made in the USA. \$21. [www.revengeis.com](http://www.revengeis.com)

*My daughter loves her Green Tee. She's not usually a t-shirt wearer, but this one is so soft and comfortable, that she happily wears it ... and proudly announces that it's made from recycled bottles. We feel strongly about recycling and reusing as much as we can and would definitely check out*

*the company's other products, too.*
