

Revenge Is...

Making activism fashionable, these comfy, eco-chic tees from [Revenge Is...](#) are all the rage this summer! Silky-soft, you would never guess that they are made from recycled plastic water bottles (RPET) combined with 100% organic cotton! It only takes between 3-5 plastic water bottles to make each [Revenge Is...](#) organic cotton and RPET blend tee. Give it a think - how many plastic water bottles are in your recycling bin at the moment? Conscious of the environment in all aspects, from their packaging using Tyvek® or poly bags that can be recycled to their commitment to using eco-friendly materials, such as soy ink, to make their stylish tees, [Revenge is...](#) is a stand-out company! In addition, the ink used on their children's shirts are PVC, Phthalates, Formaldehyde, Heavy Metal, and APEO free. To learn more about the materials used in the production of their products, [click here](#).

"Mom" at [Tiny Green Mom](#) is living in these tees this week! Not only are they true to size, they can go from dressed up (paired with a nice pair of heels and a skirt) or dressed down (with khakis or jeans) - either way, you will be so comfortable, and making a statement at the same time!

[Revenge Is...](#) makes an effort to give back each year and contributes at least 10% of their profits to charity. To view a complete list of supported charities, please [click here](#).

To purchase their fashionable planet-friendly wear for men, women and children, visit [RevengeIs.com](#).
